

EDUCATION	The University of Texas at Austin <i>Ph.D. in Electrical and Computer Engineering</i> • Co-advised by Prof. Guandao Yang and Prof. Diana Marculescu	Austin, TX, USA Sep 2026 -
	Korea University <i>M.S. in Artificial Intelligence</i> • Co-advised by Prof. Donghyun Kim and Prof. Suhyun Kim	Seoul, Republic of Korea Sep 2024 - Aug 2026
RESEARCH INTERESTS	Image and video generation (diffusion, flow matching, world models), Generate to Understand (leveraging generative models for perception and reasoning), AI Safety (safe generation, concept erasure)

Difference Inversion: Interpolate and Isolate the Difference with Token Consistency for Image Analogy Generation. <i>IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR) 2025</i>.	
EXPERIENCE	Korea Institute of Science and Technology (KIST) Graduate Researcher (<i>Advisor: Suhyun Kim</i>) • Research on image analogy generation, safe image translation, self-improving diffusion classifier performance with diffusion model [C1, C3, P2].	Sep 2024 - Aug 2026
	Korea Institute of Science and Technology (KIST) Undergraduate Research Intern (<i>Advisor: Suhyun Kim</i>) • Research on Model Inversion: Data-free image synthesis via optimizing text embedding on a text-to-image diffusion model [C2].	Mar 2024 - Jun 2024
	Medical Image Innovation Lab, Seoul National University Undergraduate Intern (<i>Advisor: Wonjin Lee</i>) • Research on conditional generation and image inpainting in medical domains using diffusion model.	Dec 2023 - Feb 2024
